Dear NSSED Families,

CDC Mask Guidance

Correct and consistent [mask use](#) is a critical step everyone can take to prevent getting and spreading COVID-19. Masks work best when everyone wears them, but not all masks provide the same protection. When choosing a mask, look at how well it fits, how well it filters the air, and how many layers it has. See this [CDC web page](#) for more information.

Eye Protection

Eye protection has recently been in the news and can be an important mitigation step. As we have referenced in NSSED staff training sessions, eye protection can include wearing your own glasses, face shields, or goggles.

Allvax Accounts

The LCHD has asked us to remind you that you should not create two Allvax accounts.

Black History Month Resource

Check out [Reading Rockets](#) and for a wide variety of video interviews with children's authors and illustrators, book lists, activities for school and home in their Black History Month collection.

Kurt A. Schneider, Ph.D.
