

October 20, 2020

Dear NSSED Families and Staff,

This afternoon, the Lake County Health Department sent out a press release recommending that school districts move to a remote learning model. As a result of this communication, Lake County school districts are in the process of identifying their specific plans and next steps.

Because NSSED serves school districts in both Lake and Cook counties, at this time we are still gathering information from Cook County, as well as all of our member districts, to help us determine next steps for NSSED. Regional county health data and our member-district statuses, are important considerations of our reopening plan. Therefore, the plan for tomorrow is to continue our current Blended Remote Learning model. We will have further communication for everyone tomorrow evening as to our specific next steps.

Kurt A. Schneider, Ph.D.  
Superintendent  
Northern Suburban Special Education District
