

September 10, 2020

Dear NSSED Families and Staff,

Blended Remote Learning

We are off to a great start with our Blended Remote Learning Model. Students and staff across the cooperative are staying safe and learning together! I have been to each of our sites and we are proud of our students for wearing face coverings and following our new procedures. Thank You!

Reopening Plan

We have revised and added new guidance into the Reopening Plan. Please see the following items:

- [Confirmed Cases of COVID-19](#)
- [Access to District Services Center](#)

Protecting the School Community

- We encourage staff and families to get a flu shot before the end of September. The Lake County Health Department recommends this to prevent co-infections. Flu shots are available now; don't wait! Walgreens offers flu shots during pharmacy hours with no appointment necessary, and you can also check with your primary care physician.
 - NSSED staff: Please note that NSSED will not be offering flu shots this year at the DSC office like we have in the past. You can use your Blue Cross/Blue Shield medical coverage for a flu shot at participating providers.
- Please wear a face covering where recommended, in school or in the community.
- Remember to wash your hands frequently, and maintain a six-foot social distance from others.

Lake County Virtual Town Hall September 30

Many of our students and staff are residents of Lake County. Anyone interested in COVID-19 conditions in Lake County can attend a virtual town hall meeting on September 30 at 7:00 p.m. [See this flyer for more information and a link for registration.](#)

Staff Update

Please see the Staff Reopening Information and Resources for information on how to reserve space at the District Services Center for meetings with visitors, and on Google Meet and Zoom training opportunities. Go to nssed.org/reopening and click the link of the left menu for staff information.
