

Step 1 Starting a slide deck from your drive. Click on New > Google Slides > from template

Step 2 Click on the TrueNorth Theme

Step 3 Click on the title and re-name your slide deck or it will be called “TrueNorth Theme”

Step 4 In order to change the different slide themes in the template, right click (control click on Mac) on the slide you want to change and choose **Apply Layout**. Click on the one you want.
